

9 BENEFITS

OF THE SCULPSURE FAT-BURNING TREATMENT

STUBBORN ROLLS, MUFFIN TOPS, AND FAT POCKETS TAKE A TOLL ON YOUR CONFIDENCE.

No matter how well you eat or how much you exercise, they just won't go away. You're forced to wear clothes that hide your problem areas, and you're left with insecurities and low self-esteem.

If you struggle with stubborn fat, **SculpSure can help you achieve the body you've always wanted.** Unlike fat freezing, SculpSure uses a laser that targets and heats fat cells underneath the skin without affecting the skin's surface.

This revolutionary natural treatment **has helped thousands of women and men love the way they look.** Here are the top nine benefits of the FDA-approved SculpSure treatment.

1

SculpSure has an

83% TO 100%

patient satisfaction rate, according to clinical studies.

2

CONTACT COOLING

enhances patient comfort, and no post-treatment massage is required.

3

FEATHERING

of heat provides natural-looking results.

4

Treatments permanently destroy up to

42% OF FAT CELLS

in problem areas.*

5

The side effects are

MILD AND TEMPORARY

compared to the numbness, bruising, and itching associated with fat freezing.

6

Treatments are

CUSTOMIZED

for a variety of shapes and sizes.

7

Treatments take just

25 MINUTES PER AREA

- 35 minutes faster than fat freezing.

8

You can resume your daily activities

IMMEDIATELY

9

Results can be seen as early as

6 WEEKS

with optimal results typically seen at 12 weeks.

SCULPSURE AT THE RESURGE CLINIC

At The Resurge Clinic, we've experienced firsthand how infuriating it can be to work out and follow a balanced diet and still not see the results you desire. We also know how frustrating it is to have your wardrobe revolve around your problem areas.

SculpSure is **the most advanced fat-burning technology in the nation.** Let us help you can regain your confidence and obtain the results you've always dreamed of.
