

HOW DO GETHAIRMD GUMMIES PROMOTE THICKER, STRONGER, HEALTHIER HAIR?

Hair thinning and loss can dramatically impact your self-confidence, regardless of your gender. **GetHairMD Hair Vitamin Gummies** are scientifically formulated to support healthy hair growth with these 12 essential nutrients:

Vitamin A

Regulates hair follicle stem cells, allowing for the growth of healthy skin and hair

Vitamin C

Potent antioxidant that protects hair follicles from damage and encourages collagen formation

Vitamin D

Signals the anagen (growth) phase, encouraging thick hair growth

Iodine

Essential for thyroid hormone production, which regulates the hair growth cycle

Choline

Bioavailable form of silicon that promotes hair strength, reducing breakage and hair loss

Zinc

A common therapy option for patients with alopecia areata (hair loss)

Vitamin B6

Makes hemoglobin, which carries oxygen to the scalp to encourage hair growth and health

Vitamin B12

B12 deficiency is known for causing hair loss in men and women

Biotin

Proven to provide clinical improvement for those with poor hair and nail growth

Pantothenic Acid

Protects hair from the elements and boosts the body's natural repair processes

Vitamin E

Antioxidant that reduces oxidative stress responsible for breaking down hair follicles in the scalp

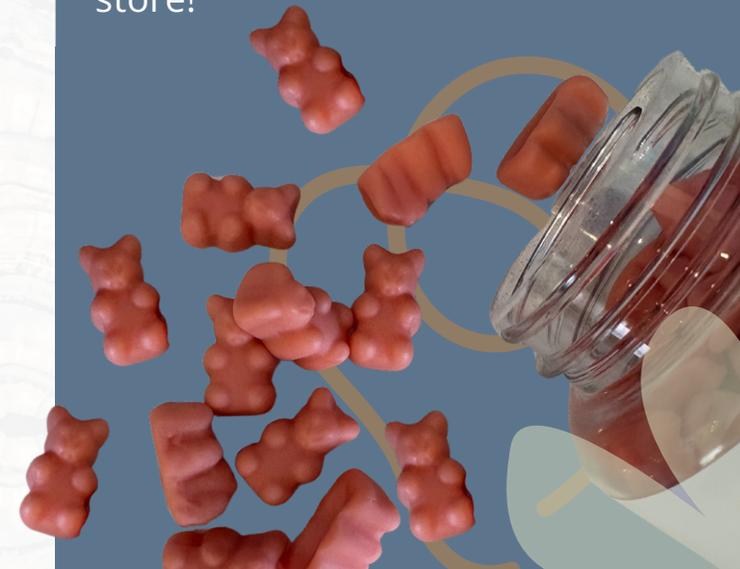

Inositol

Has hormone-balancing properties that decrease DHT, which causes hair loss.
