

PULSEWAVE FACT SHEET

IMPROVES SENSITIVITY, PERFORMANCE, AND GIRTH

By improving blood flow to the penis, PulseWave enhances sexual pleasure and performance in men with and without ED

OVER 75% SUCCESS RATE

More than 3/4 of patients see a dramatic reduction in ED symptoms after just one treatment.

TREATS THE ROOT CAUSE OF ED

PulseWave's high-frequency waves break up plaque formation in the penis, the cause of over 80% of ED cases.

NON-INVASIVE AND NON-SURGICAL

No needles, stitches, or sutures are required, and you will not have to go under anesthesia to get the treatment.

NO RECOVERY TIME

The treatment has no downtime, so you can get back to work right away or enjoy date night the same evening.

PAIN AND EMBARRASSMENT FREE

You'll apply a numbing cream to the area before treatment, so you will not experience discomfort or erections during the treatment.

BENEFITS CAN LAST UP TO 2 YEARS

A series of treatments may provide long-lasting results for up to 2 years, and you can maintain your results with additional treatments.

TREATS PEYRONIE'S DISEASE

PulseWave gently breaks down the chronic scar tissue buildup that causes the penis to curve in patients with Peyronie's Disease.

NO MAJOR SIDE EFFECTS REPORTED

Most patients report no side effects, although you may notice more frequent erections following your treatment.

SAFE FOR PATIENTS WITH CERTAIN HEALTH PROBLEMS

Men with heart disease, diabetes, or high blood pressure who cannot take ED meds are fully able to use PulseWave.

10 TO 20% INCREASE IN SIZE

In one study, patients reported a 1-inch increase within the first month following treatments.

TAKES 30 MINUTES OR LESS

Treatments are fast, so you can get treatments done during your lunch break without disrupting your day.

REGAIN YOUR CONFIDENCE & DRIVE WITH PULSEWAVE

At The Resurge Clinic, we understand the way performance problems can seriously affect your relationships and your self-confidence. It can be embarrassing and frustrating. Fortunately, it isn't something you have to live with.

PulseWave helps men and their partners experience satisfying sex again. By gently increasing blood flow to the penis, PulseWave can treat your ED for good and even benefit men who don't experience ED.

We have helped thousands of men regain their confidence, enhance their sexual stamina, and restore their quality of life using PulseWave. Dr. Wusterhausen trained under Dr. Gaines, the founder of PulseWave, and is the most experienced sexual wellness doctor in the Dallas-Fort Worth metroplex.

If you're ready to enjoy sex again, schedule a free consultation with The Resurge Clinic. We'll create a custom treatment plan to restore your quality of life so you can regain the lifestyle — and sex — you once had.
